W. Stoy, T. Platt, D. Lejeune and the Center for Emergency Medicine, published by Mosby.

Program description:

Emergency Medical Technician – Basic (4 year certification)

The Emergency Medical Technician – Basic course is designed to provide training to prepare an individual to function independently in a medical emergency. This course provides the basic knowledge and skills needed to provide basic life support (BLS) care and is required to progress to more advanced levels of pre-hospital patient care.

Commonwealth Criminal Justice Academy, LLC.

The course requires a minimum of 111 hours of classroom and skills instruction and 10 hours of Clinical/Field rotations for a total of 121 hours of training.

Virginia Certification requires successful completion of a written and practical skills examination. This course is designed to train individuals to serve as a vital link in the chain of the health care team.

Student will be eligible to set for Virginia EMT-Basic exam **Note:** reciprocity available to the take National Registry Exam after gaining Virginia certification.

This includes all skills necessary to provide emergency medical care as an attendant-in-charge with a basic life support ambulance service or other specialized rescue service.

Upon successfully completion of the training program, the student will be capable of performing the following functions:

- (1) Recognize the nature and seriousness of the patient's condition or extent of injury to assess requirements for emergency care.
- (2) Administer appropriate emergency care to stabilize the patient's condition.
- (3) Lift, move, position and otherwise handle the patient in a way as to minimize discomfort and further injury.

The EMT-Basic curriculum will be based upon the DOT National Standard Curriculum for the EMT-Basic (1994 edition) and the 2002 Supplemental Airway Modules for the 1994 EMT-Basic National Standard Curriculum. The EMT-Basic will be trained and proficient in all skills described in the DOT National Standard Curriculum for the EMT-Basic (1994 edition) and the 2002 Supplemental modules for the EMT-Basic: National Standard Curriculum.
